

# MAKING THINKING VISIBLE

STAFF PROFESSIONAL DEVELOPMENT

March 4, 2014

## Thinking Session

*Thinking Routines for Social & Behavioral Skill-Building*

Thinking routines for social and behavioral skill building:

- Compass Points
- Headlines
- See-Think-Wonder
- Micro Lab Protocol
- I Used to Think . . . Now I Think . . .
- Other ideas generated by discussion

---

## How to use these routines with students:

- Conflict Resolution or Behavior Correction – For conflicts between student and teacher or amongst students, these routines can help clarify/resolve conflict, or solidify learning following a conflict. The same applies to helping with correcting inappropriate behaviors.
- When a student is angry, sad, or worried about something, many of these routines are good “counseling” tools we can use to help students get to the core of the issue and address their thoughts and feelings.
